The addition + meaning is nothing but attraction power that will comes from birth level in some kind of magnetic power usually in birth level rays of jupitor will seeing or rise in rays to person birh date. Thus in some places positive energy will be gaining from temple , holy places because of these jupitor energy which has highest gravity power. Here role of CG plays same as server ie., sharing data etc obviously . people will be gathered if and only if there has magnetic power of attraction. People want healing their body towards their attitude , behaviour . role of king also such magnetic power of attraction if has such followers , views , shares , downloads , etc . powerful king wins other nation by gaining import and export profits business relationships , bi and tri lateral meetings. considering science point view jammer is slows down network range ie repulsion power. This paper is dealing with how the nation will become strong through universal + energy .In creation also using cg person all forces will become balanced usually sex organs.so one thing living or non living creation utilises cg

Keywords: CG(centre of gravity) , balancing of masses , jupitor , creation design

## I. INTRODUCTION

Universal galaxy, stars , planets some of other new things will be seeing through CG. It is the (0,0) exactly middle of the earth power by considering reference point. Through this point white magic will be energetic power will be delivered to some other sky. One thing remembering that healing of such negative energy will be maximised. Then only positive energy well expecting. The cg as considered as telescope and transferring valuable Nobel atoms etc.

balancing of masses is done at this level. Surrounding nature will be balanced through this kind of cg. The man political thought will be very bad nature to gain energy within short period , such that he always took simple way even though whatever may be evil happening. If man has trying to find digging some other places from black magically its nothing but unbalanced way of forces . so one can choose positive way of fashion. So many types of living things will be seeing through these well pheneomenon. The bill of material will be ingradients to particular creation spare parts of things or body parts. In solar system

also by gravity only those are all held together balancing. The jupiter contains atoms which has highest nobel which cant react easily to other atoms. True positive energy rays comes from that planet. When the body will be equilibrium means sum of the forces in all directions are equating to zero.  $\sum FX=0$ ,  $\sum FY=0$ ,  $\sum FZ=0$  and remaining negative directions.

## II. CONCLUSION

1. True positive energy rays comes from that jupiter planet.
2. The bill of material will be ingredients to particular creation spare parts of things or body parts
3. The cg as considered as telescope and transferring valuable nobel atoms
4. through CG is the (0,0) exactly middle of the earth
5. black magically its nothing but unbalanced way of forces
6. healing of such negative energy will be maximised
